

Repairing the Breach

Repairing the Breach

A Ministry of Healing between

the American Christian and His Nation

Repairing the Breach seeks to embrace every Christian in America who realizes:

-
The gap between Christianity and public morality is widening

-
Individuals are being separated from their property by public laws

-
The Bible is being divorced from politics and economics
The Repairing the Breach ministry is stirring Christians to:

-
Remember that God is the author of both spiritual and civil liberty

-
Understand why there would be no America if there were no Christ and Christianity
